

HEARTLAND SUSTAINABILITY *award*

Each year, ICAT presents the Heartland Sustainability Award to the person who best demonstrates extraordinary leadership and original work in developing, employing, and supporting the principles of sustainability. The recipient would have created mechanisms to embrace social equity, economic development, environmental health, and green practices. Further, the recipient would have instilled a culture of sustainable developments within an organization and/or community.

The Heartland Sustainability Award is presented at the Innovations in Construction, Asphalt and Transportation Conference.

Award Criteria

Criteria

Awarded to an individual who has:

- Focused on developing long-term solutions to a workplace or industry challenge
- Positively influences the people around him/her beyond financial contributions
- Demonstrates leadership despite challenges
